To the Honorable Mayor and Members of the City Council  
of the City of League City, Texas

Re: Universal Natural Gas, LLC d/b/a Universal Natural Gas, Inc.'s Test Year 2023 Gas Reliability Infrastructure Program ("GRIP") Interim Rate Adjustment for the Incorporated Areas

Universal Natural Gas, LLC d/b/a Universal Natural Gas, Inc. ("UniGas") hereby files the attached tariffs to implement an Interim Rate Adjustment ("IRA") applicable to gas utility service provided to customers within the cities of Anna, Bastrop, Bonney, Bulverde, Cleveland, Conroe, Converse, Elmendorf, Fort Worth, Fredericksburg, Houston, Hutto, Iowa Colony, Kyle, League City, Lockhart, Magnolia, Manvel, Mustang Ridge, New Braunfels, Princeton, Rosenberg, San Marcos\*, Santa Clara, Taylor, Texas City, Umland, Venus, and Willis, Texas (collectively, the "Cities"). This same IRA Application is being filed concurrently with the Texas Railroad Commission ("Commission") and is also applicable to UniGas's unincorporated customers.

Texas Utilities Code Section 104.301 establishes Texas' Gas Reliability Infrastructure Program and is commonly referred to as the "GRIP" statute. Its purpose is to encourage system investment and reduce the frequency of comprehensive rate cases by providing a streamlined process for utilities to recover their capital investments on an interim basis. This IRA Application covers the 12-month period between January 1, 2023 and December 31, 2023. Commission Case No. OS-20-00004865 established UniGas's current base rates. The IRA factors and depreciation rates set in the Commission's April 13, 2021 final order in that case have been used in connection with this IRA Application. This IRA Application would establish an interim rate adjustment affecting the monthly customer charge applicable to UniGas customers. The IRA Application proposes recovery of the incremental cost of new capital investment in facilities used to provide gas utility services to customers and will remain in effect until issuance of a final order in a base rate case that is filed after implementation of this IRA. All incremental revenue collected under this IRA Application is subject to refund. The proposed effective date for the changes contained in the IRA Application is May 11, 2024, which is 71 days after the filing date, subject to any suspension period that may be adopted under Texas Utilities Code § 104.301. UniGas is voluntarily extending the proposed effective date by 11 days to accommodate the Commission's conference schedule and maintain consistency between IRA Application schedules.

UniGas's IRA Application reflects its significant investment in and commitment to expanding natural gas energy choices to new communities across Texas. Texas homebuilders continue to execute new housing starts despite the higher mortgage rates, debt costs and inflationary environment experienced in 2023. This level of investment has been made to keep pace with the extraordinary growth of Texas itself.

Also enclosed with this IRA Application are:

- (i) clean and redlined versions showing proposed revisions to UniGas Rate Schedules RES (Residential Service) and COMM (Commercial and Other Non-Residential Service);
- (ii) UniGas's proposed form of notice to customers;

(iii) UniGas's project report detailing the capital investment projects subject to this IRA Application, which is incorporated into the IRA Application;

(iv) the affidavit of Hayley T. Cunningham, which sets forth the proposed form of notice, notice method and notice timing relating to UniGas's IRA Application, as well as a verification that UniGas's books and records are kept in accordance with Commission rules and that the relevant schedules in UniGas's IRA Application present fair and accurate information from those books and records;

(v) UniGas's annual earnings monitoring report for calendar year 2023; and

(vi) Rate Comparison Information pursuant to Section 9.B. of Ordinance No. 2023-24.

Should you have any questions regarding this IRA Application filing, please do not hesitate to contact me.

Respectfully submitted,

Notes:

- Column (b) shows the company's Cost of Service from GUD OS-20-0009430. Column (e) represents an approximation of the Cost of Service reached in GUD OS-20-00012763 based on the approved Plant in Service, Depreciation Expense, Rate of Return, Return on Equity and Operating Revenues.
- Depreciation expense reflects the gross plant balances for accounts 301 through 394 as presented in Exhibit 2 of the OS-20-00004865 Final Order multiplied by the approved depreciation rates.
- Federal Income Taxes shown in Column (e) are calculated based on the application of statutory 21% federal income tax rate (per OS-20-0004865 Final Order, Finding of Fact No. 37) to the product of the approved weighted cost of equity and the rate base amount shown on Line No. 23.
- Rate Base in Column (e) represents a calculation of rate base used for settlement based on plant balances included in OS-20-00012763 Final Order and other rate base components as requested.
- Column (g) shows the calculated difference between Columns (h) and (e).
- Amount shown in Column (e) plus plant included in IRA Application filed March 1, 2024.
